

Cookie Policy

A cookie is a small piece of data stored by a website within a browser on the website visitor’s device. We use cookies to help us to improve our site and to provide us with information about usage of the website. Certain third parties also place cookies on your device when you browse our website.

The web browsers you are currently using will allow you to have some control over the saving of cookies on your computer, tablet or smartphone through your browser settings. For further information about cookies, including how to view which cookies have been saved to your device as well as how manage, delete and block cookies, visit www.allaboutcookies.org/manage-cookies/.

Our website may save cookies on your device as soon as you visit any page unless you have set your browser to refuse cookies. We use a number of suppliers who may also set cookies on or for their websites. We do not control the dissemination of these cookies found in other companies’ internet tools which we use to enhance our site; for example, Twitter have their own cookies, which are controlled by them. You should check the third-party websites for more information about these (see below).

Cookies we use on our website and the purposes they serve (currently only from one provider) are:

Provider	Cookie	Expiry	Purpose	More Info
Google Analytics	__utma __utmb __utmc __utmz	__utma is a persistent cookie. __utmb and __utmc are session cookies that last up to a maximum of 30 minutes. __utmz is a persistent cookie that lasts for 6 months.	These third party cookies are saved to your device to allow us to use the Google Analytic service. They collect anonymous information on how visitors use our site. We use these to create website usage reports including the number of visitors, which websites they have come from to get to our site and the pages that were visited.	Google Privacy Policy
